Agenda

- What is Semantic Versioning?

- What branching strategy should I use?

- What is GitVersion?

- Why do I need GitVersion?

- What is GitReleaseManager?

- Putting it all together...

Q

What is

Semantic Versioning<i class="fa fa-question" aria-hidden="true"></i>

A

<i class="fa fa-quote-left" aria-hidden="true"></i> ...simple set of rules and requirements that dictate how version numbers are assigned and incremented. These rules are based on, but not necessarily limited to, pre-existing widespread common practices in use in both closed and open-source software.
